

STYLUS 802 CROSS-WEAVE FILAMENT TAPE

DESCRIPTION:

802 is a premium grade filament tape made from a strong polypropylene film coated with an aggressive adhesive that is reinforced bilaterally (cross-weaved) with glass yarn filaments. Colour: Translucent.

**PERFORMANCE
FEATURES:**

The high coat weight of adhesive ensures positive adhesion to any surface. The cross-weave reinforcing filaments give extremely high burst strength, making it suitable for the most demanding packaging applications. This product is RoHS compliant in respect to 2002/95/EC.

**TECHNICAL
SPECIFICATIONS:**

Adhesion:	-	1020 gm/cm
Thickness:	-	0.13 mm
Tensile Strength:	-	27.55 Kg/cm
Elongation:	-	6%
Temperature	-	60°C

SIZES AVAILABLE:

12mm, 18mm, 24mm, 36mm, 48mm, 72mm, 96mm x 45M
Other sizes available subject to min. orders.

APPLICATIONS:

Because of the high burst strength in both directions, 802 is specially recommended for sealing cartons containing dangerous goods, and reinforcing other carton seals in heavy duty packaging and prevention of cartons sagging. Can also be used in unitising palletising and bundling applications and holding appliance and furniture doors and shelves in place during storage and transportation.

The above information is given in good faith for guidance only and not specification purposes. All data is based upon average values, the Purchaser shall be responsible for determining the suitability of this product for their purposes.
